BIOGRAFIE / AUSSTELLUNGSVERZEICHNIS (Auswahl)

BIOGRAPHY / EXHIBITION LISTING (selection)

Since 1993, Vienna and Vancouver based artists Sabine Bitter and Helmut Weber have cooperated on projects addressing urban geographies, architectural representations and related visual politics. Educated at University for Applied Arts in Linz with Laurids Ortner, their artistic works focus on emergent sites and overlaps of architecture, urban developments, communications systems and modes of artistic and cultural production as they are mediated through photography, video and new media technologies. Dealing with architecture as a frame for spatial meaning, the works of Bitter/Weber are at the interface of architecture, new media technologies, and systems of representation.
